WHS 97-01

TO: COUNTY AGRICULTURAL COMMISSIONERS

SUBJECT: REMOVAL OF 2,4-D PLANT GROWTH
REGULATOR PRODUCTS FROM THE
RESTRICTED MATERIALS LIST

The Office of Administrative Law has approved and forwarded to the Secretary of State the regulatory change that removes 2,4-D plant growth regulator products from the restricted materials list. This change will become effective on February 13, 1997.

The reorganization of the restricted materials inadvertently resulted in the inclusion of these specialized products on the restricted materials list. This action returns them to their previous status as nonrestricted.
